Independent Auditor's Report

Board of Trustees
Des Plaines Valley Mosquito Abatement District
Cook County, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Des Plaines Valley Mosquito Abatement District as of and for the year ended April 30, 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Des Plaines Valley Mosquito Abatement District, as of April 30, 2026, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Des Plaines Valley Mosquito Abatement District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Des Plaines Valley Mosquito Abatement District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditor's Report

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Des Plaines Valley Mosquito Abatement District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Des Plaines Valley Mosquito Abatement District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we have identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information on pages 4 through 7 and 22 through 26 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Independent Auditor's Report

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying financial information listed as supplementary information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects, in relation to the financial statements as a whole.

ATA Group, LLP

October 12, 2026

Management's Discussion and Analysis

As management of Des Plaines Valley Mosquito Abatement District, this narrative overview and analysis is provided of the District's financial activities for the fiscal year ending April 30, 2026. It is recommended that readers consider this information in conjunction with the financial statements as a whole.

The District is an independent municipality, established in 1927 by the "Mosquito Abatement Districts Act" which provided for the organization of tax-supported mosquito abatement districts within Illinois. The District operates under Chapter 70, Act 1005, Sections 0.01-13a, of the Illinois Compiled Statutes. Control operations are conducted on a calendar year basis with separate summary report issued. Financial operations are conducted on a May 1- April 30 fiscal year with review and report issued by independent auditor.

Overview of the Financial Highlights

Management's discussion and analysis serves as an introduction to the District's financial statements. The statements presented include a Governmental Fund Balance Sheet and Statement of Net Position, a Statement of Governmental Fund Revenues, Expenditures, and Changes in Fund Balances and Statement of Activities, and notes to the financial statements. The District qualifies as a special-purpose government engaged in only one governmental type activity allowing it to combine the fund and government-wide financial statements. This is done through the use of an adjustment column, on the face of the statements, which reconciles the fund based financial statements to the government-wide statements.

Financial Highlights

The District's total net position as of April 30, 2026 and 2025, was \$3,353,447 and \$3,761,119, respectively. For the years ended April 30, 2026 and 2025, net position decreased by \$407,672 and increased by \$480,113 (net of prior period adjustments and change in accounting principle totaling \$479,460), respectively, as expenses exceeded revenue in the current fiscal year and revenue exceeded expenses in the prior year. The term "net position" represents the difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources.

Financial Statements

The financial statements of the District are intended to provide the reader with an understanding of the financial position of the District as of the close of the fiscal year and the results of activities for the year then ended. The fund financial statements focus on current financial resources while government-wide financial statements are similar to a private-sector business.

The Governmental Fund Balance Sheet and Statement of Net Position provides information on the District's assets/deferred outflows of resources, and liabilities/deferred inflows of resources. The difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources represents the governmental fund balance for the current financial resources reporting and net position for the government-wide reporting.

The Statement of Governmental Fund Revenues, Expenditures, and Changes in Fund Balances and Statement of Activities reflects the results of the District's revenues, expenditures/expenses and activities during the year and the corresponding effect on fund and net position balances. This statement shows the source of District revenues and how those revenues were used to provide services.

Management's Discussion and Analysis

Notes to the financial statements provide additional information that is essential for a full understanding of the information provided in the basic financial statements. Required Supplementary Information consists of a more detailed comparison of estimated revenues and appropriation to actual revenues and expenditures, more information on the pension (asset) liability, and on employer contributions to the pension liability.

Condensed Statement of Net Position

End of Year	\$ 3,353,447	\$ 3,761,119

Management's Discussion and Analysis

Financial Analysis

Net position may serve, over time, as a useful indicator of a government's financial position. The District's assets/deferred outflows exceeded liabilities/deferred inflows of resources by \$3,353,447 as of the close of the year. Of the net position balance, \$1,153,136 is restricted, \$1,241,848 is unrestricted and \$958,463 is net investment in capital assets. The District uses these capital assets to provide services and, consequently, these assets are not available to liquidate or for other spending.

The District's Funds

The following is a summary of changes in fund balances for the year ended April 30, 2026:

Governmental Funds	Fund Balance April 30, 2025	Increase (Decrease)	Fund Balance April 30, 2026
General	\$ 972,156	\$ (500,433)	\$ 471,723
Capital Improvement	234,245	123,412	357,657
Social Security	386,074	(3,130)	382,944
Illinois Municipal Retirement	193,935	(30,684)	163,251
Audit	18,815	(11,485)	7,330
	<u>\$ 1,805,225</u>	<u>\$ (422,320)</u>	<u>\$ 1,382,905</u>

The net changes include a net transfer of \$167,088 from the general fund to the capital improvement fund for future projects.

Significant Events

Mosquito development is governed directly by prevailing weather conditions, and by no means can be considered predictable. Control operations must and do vary on a daily basis to meet the changing requirements of any particular mosquito season. Thus if climatic conditions are conducive to this extent, finances are available to complete necessary control measures. However, if climatic conditions create a "lighter" mosquito population, expenditures are lower with any surplus funds re-appropriated to the next fiscal period and subsequent tax levy requirement.

The 2025-26 fiscal year period encompassed the 2025 mosquito season. COVID-19 protocol established in prior seasons continues to be used in the current season. Modified operations were maintained with reduced staff and expanded use of growth regular larval control products. Essential operations focusing on the monitoring and control of vector mosquitoes involved in West Nile Virus transmission to human remained unchanged.

Budgetary Highlights

The District's general fund expended \$2,233,658 (including the \$401,333 transfer to the capital improvement fund), which was \$838,165 less than the appropriation of \$3,071,823. The budgetary savings primarily related to insecticides which reflected the demands of the season experienced.

Capital Assets

The District's investment in capital assets amounts to \$958,463, net of accumulated depreciation, as of April 30, 2026. Capital asset acquisitions during the current fiscal year included a new heater and air conditioner.

Management's Discussion and Analysis

	April 30,	
	2026	2025
Land	\$ 506,268	\$ 506,268
Buildings and Building Improvements	691,618	666,282
WNV Test Equipment	41,199	41,199
Tools and Equipment	185,725	185,725
Vehicles and Equipment	828,533	828,533
Cost of Capital Assets	2,253,343	2,228,007
Less Accumulated Depreciation	(1,294,880)	(1,230,210)
Net Capital Assets	<u>\$ 958,463</u>	<u>\$ 997,797</u>

See Note 4 on page 15 of the financial statements for more detailed information about District capital assets.

Economic Factors

Currently, management is not aware of any changes in conditions that could have a significant effect on the financial position or results of activities of the District in the near future.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director, Des Plaines Valley Mosquito Abatement District, 8130 Ogden Ave., P.O. Box 31, Lyons, Illinois 60534-0031.

The accompanying notes are an integral part of these financial statements.

Note 1: Summary of Significant Accounting Policies

Des Plaines Valley Mosquito Abatement District (District) was incorporated in November 1927 under the "Mosquito Abatement District Act" and is governed by a five-member Board of Trustees appointed by the Cook County Board of Commissioners. It is the purpose of the District to reduce the number of both nuisance type mosquitoes and those capable of transmitting disease through a program integrating larval control, source reduction and adult control. The District services the western suburbs of Cook County.

The financial statements of Des Plaines Valley Mosquito Abatement District have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District is a special-purpose district and the reporting entity includes all entities for which the District exercised oversight responsibility as defined by the GASB.

The District has developed criteria to determine whether outside agencies should be included within its financial reporting entity. The criteria include, but are not limited to, whether the District (1) selects the governing authority or management, (2) has the ability to significantly influence operations, or (3) has accountability for fiscal matters (e.g., final budget approval, responsibility for funding deficits, management of assets, etc.). Using these criteria, the District has not included in its financial statements the activities of any other entity.

B. Basis of Presentation

The government-wide and fund financial statements are combined, with a reconciliation shown between them.

The Governmental Funds Balance Sheet and Statement of Net Position and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and Statement of Activities combines information about the reporting government as a whole and funds statements to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities.

Major individual governmental funds are reported as separate columns in the fund financial statements. The major funds are the General Fund, Capital Improvements Fund and Social Security Fund. Following is a description of major and non-major funds.

General Fund Type – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Reserve Fund Type - Special Reserve Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. The special reserve funds of the District are: Social Security, IMRF, and Audit.

Note 1: Summary of Significant Accounting Policies

Capital Projects Fund Type – The Capital Improvements Fund is used to account for the acquisition of capital assets or construction of major capital projects.

C. Basis of Accounting

The government-wide statements, the Statement of Net Position and the Statement of Activities, are prepared using the economic resources measurement focus and the accrual basis of accounting. Generally, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Fund financial statements, the Governmental Funds Balance Sheet and Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances, are prepared using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under this basis, revenues are generally recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable.

In applying the susceptible to accrual concept under the modified accrual basis, the District considers property taxes as available if they are collected within 60 days after year-end. A one year availability period is used for all other governmental fund revenues.

The District recognizes property taxes receivable during the fiscal year in which the taxes are levied and become a legal claim of the District; however, property taxes are not recognized as revenue until the subsequent fiscal year when the property taxes are extended by Cook County and remitted to the District. Accordingly, the property tax levy for the 2025 tax year is recognized as deferred inflows of resources in the accompanying balance sheet.

D. Cash and Investments

Cash and cash equivalents represent amounts in a demand deposit account, money market accounts and certificates of deposits.

Illinois Revised Statutes authorize the District to invest in securities guaranteed by the full faith and credit of the United States of America, interest bearing savings accounts, certificates of deposit or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act, the State Treasurer's investment pool, and other permitted investments under paragraph 902, chapter 85 of the Statutes as amended by Public Act 86-426. Investments may only be made in banks which are insured by the Federal Deposit Insurance Corporation.

E. Capital Assets

The accounting treatment over capital assets depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide Statements

In the government-wide financial statements capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets, which

Note 1: Summary of Significant Accounting Policies (Continued)

are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

- Buildings	40 years
- Improvements	15-20 years
- Tools and Equipment	5 years
- Vehicles and Equipment	5-15 years

The minimum amount at which assets are capitalized is \$3,000.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

F. Prepaid Expense

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid expense.

G. Inventory

Inventory is valued at cost, which approximates market, using the first-in/first-out (FIFO) method, on the government-wide financial statements. Inventories are expended at the time of purchase (purchase method) on the fund financial statements. Inventories consist of chemicals and fuel.

H. Compensated Absences

In June, 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized in financial statements prepared using the economic resources measurement focus for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This standard was implemented May 1, 2024.

Vacation pay for employees is vested as it is earned. In addition, sick leave is also vested as it is earned. Any unused sick leave remaining at year end may be compensated to an employee at the rate of one-half normal pay in effect on that date. In lieu of compensation, employees may transfer any unused sick days to vacation days. In the governmental-wide financial statements, vacation and sick pay that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a liability in the government-wide statements.

Note 1: Summary of Significant Accounting Policies (Continued)

I. Deferred Outflows and Inflows of Resources

Deferred outflows of resources related to pension expense represent amounts related to the difference between expected and actual experience, changes in assumptions and the net difference between projected and actual earnings on pension plan investments. In addition, it represents post measurement date payments, i.e., IMRF payments made January through April 2026. See Note 6 for additional information on the deferred outflows.

Deferred inflows of resources consists of two items. Deferred inflows relating to property taxes do not fit the definition of a liability, that is, the use of resources to satisfy an obligation. Rather deferred property taxes represent a future recognition of revenue, therefore are classified as deferred inflows of resources. Deferred inflows related to pensions, similar to deferred outflows related to pensions, represent amounts related to the difference between expected and actual experience, changes in assumptions and the net difference between projected and actual earnings on pension plan investments.

J. Interfund Transactions

All interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Net operating transfers totaling \$167,088 were made during the year ending April 30, 2026 for the purpose of funding future capital improvements.

K. Fund Equity

The District has implemented GASB statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance – amounts that are not in a spendable form (such as prepaid expense) or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

Note 1: Summary of Significant Accounting Policies (Continued)

The Board of Trustees establish (and modify or rescind) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the Board of Trustees through adoption or amendment of the budget as intended for specific purpose.

When fund balance resources are available for a specific purpose in more than one classification, it is the District's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

L. Budgets

The budget is an estimate of actual expenditures and the appropriation represents the legal spending limit. The budget is adopted on a basis consistent with generally accepted accounting principles, through the passage of an appropriations ordinance. All appropriated amounts lapse at the end of the fiscal year. Spending control for funds is established by the amount of the total appropriation for the fund, but management control is exercised at budget line-item levels.

M. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

N. Defined Benefit Pension Plan (IMRF)

For purposes of measuring the net pension (asset) liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Interest Income Allocation

The District does not allocate interest income to the Special Reserve Fund.

Note 2: Deposits and Investments

Deposits. At April 30, 2026, the carrying amount of the District's deposits, excluding petty cash of \$100, was \$1,975,225 and the bank balance was \$2,086,015. Of the bank balance, \$952,448 was covered by federal depository insurance and \$1,133,567 was collateralized with securities held by the pledging financial institutions agent in the District's name. Included in deposits are certificates of deposits (CDs) totaling \$532,730. CD terms are generally twelve to fifteen months. The interest rate on CDs held at year end ranged from 2.956% to 3.800%.

Notes to Financial Statements

Note 3: Property Tax

The 2025 property taxes attached as an enforceable lien on January 1, 2025. Property tax revenue is recognized in the period of its intended use limited by its availability. The 2025 property taxes were levied on December 5, 2025, and have been recorded as Property Taxes Receivable to the extent not collected by year-end and Deferred Inflows of Resources. There is no allowance for uncollectible property taxes. The 2026 tax levy ordinance has not passed as of September 17, 2026.

The tax levy is divided into two billings. The billings are generally mailed on or about February 1 and July 1 (March 1 and September 1 for 2025 property taxes). The due date is 30 days after the tax bill mailing. On these dates, usually March 1 and August 1, the bill becomes delinquent and penalties and interest may be assessed by the government. The County collects such taxes and remits them periodically. Most of the tax levy is collected in the calendar year following the levy year. Property tax revenue is the collection of the 2024 and prior levies.

Note 4: Capital Assets

The following is a summary of changes in the capital assets during the fiscal year:

	Balance April 30, 2025	Increases	Decreases	Balance April 30, 2026
Capital assets, not being depreciated				
Land	\$ 506,268	\$ -	\$ -	\$ 506,268
Capital assets, being depreciated				
Buildings and Building Improvements	666,282	25,336	-	691,618
WNV Test Equipment	41,199	-	-	41,199
Tools and Equipment	185,725	-	-	185,725
Vehicles and Equipment	828,533	-	-	828,533
Total capital assets being depreciated	1,721,739	25,336	-	1,747,075
Less accumulated depreciation for				
Buildings and Building Improvements	(424,888)	(14,505)	-	(439,393)

Tools and Equipment	(179,528)	(425)	-	(179,953)
Vehicles and Equipment	(600,600)	(45,620)	-	(646,220)
Total accumulated depreciation	(1,230,210)	(64,670)	-	(1,294,880)
Capital assets being depreciated, net	491,529	(39,334)	-	452,195
Capital assets, net	\$ 997,797	\$ (39,334)	\$ -	\$ 958,463

Notes to Financial Statements

Note 5: Long-Term Liabilities

Changes in long-term liabilities during the year were as follows:

	Balance April 30, 2025	Additions	Reductions	Balance April 30, 2026	Amounts Due in One Year
Compensated Absences	\$ 123,386	\$ -	\$ 16,250	\$ 107,136	\$ 46,905

Note 6: Defined Benefit Pension Plan

IMRF Plan Description. The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided. IMRF has three benefit plans. The District participates in the Regular Plan (RP). All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Note 6: Defined Benefit Pension Plan (Continued)

Employees Covered by Benefit Terms. As of December 31, 2025, the following employees were covered by the benefit terms:

	IMRF
Retirees and Beneficiaries currently receiving benefits	2
Inactive Plan Members entitled to but not yet receiving benefits	1
Active Plan Members	5
Total	8

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2025 was 2.29%. For the fiscal year ended April 30, 2026, the District contributed \$30,684 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension (Asset) Liability. The District's net pension (asset) liability was measured as of December 31, 2025. The total pension liability used to calculate the net pension (asset) liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The following are the methods and assumptions used to determine total pension (asset) liability at December 31, 2025:

- The *Actuarial Cost Method* used was Entry Age Normal.
- The *Asset Valuation Method* used was Market Value of Assets.
- The *Inflation Rate* was assumed to be 2.25%.
- *Salary Increases* were expected to be 2.85% to 13.75%, including inflation.
- The *Investment Rate of Return* was assumed to be 7.25%.
- *Projected Retirement Age* was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2023 valuation according to an experience study from years 2020 to 2022.
- The IMRF-specific rates for *Mortality* (for non-disabled retirees) were developed from the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108%) and Female (adjusted 106.4%) tables with future mortality improvements projected using scale MP-2021.
- For *Disabled Retirees*, the Pub-2010, Amount-Weighted, below-median income, General Disabled Retiree, Male and Female (both unadjusted) tables were used with future mortality improvements projected using scale MP-2021.
- For *Active Members*, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables were used with future mortality improvements projected using scale MP-2021.
- There were no benefit changes during the year.

A detailed description of the actuarial assumptions and methods can be found in the December 31, 2025 Illinois Municipal Retirement Fund annual actuarial valuation report.

Note 6: Defined Benefit Pension Plan (Continued)

The *long-term expected rate of return* on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2025:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	32.5%	7.35%
International Equity	18.0	7.45%
Fixed Income	24.0	4.75%
Real Estate	10.5	6.25%
Alternative Investments	14.0	3.90-8.50%
Cash Equivalents	1.0	3.00%
Total	<u>100.0%</u>	

Single Discount Rate. A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 4.83%, and the resulting single discount rate is 7.25%.

Notes to Financial Statements

Note 6: Defined Benefit Pension Plan (Continued)

Changes in the Net Pension (Asset) Liability.

	Total Pension Liability (A)	Plan Fiduciary Net Position (B)	Net Pension (Asset) Liability (A) - (B)
Balances at December 31, 2024	\$ 4,988,241	\$ 5,217,194	\$ (228,953)
Change for the year:			
Service Cost	54,804	-	54,804
Interest on the Total Pension Liability	360,438	-	360,438
Change in Benefit Terms	-	-	-
Differences Between Expected and Actual Experience of the Total Pension Liability	23,162	-	23,162
Changes in Assumptions	-	-	-
Contributions - Employer	-	15,022	(15,022)
Contributions - Employees	-	29,520	(29,520)
Net Investment Income	-	739,327	(739,327)
Benefit Payments, including Refunds of Employee Contributions	(88,163)	(88,163)	-
Other (Net Transfers)	-	32,523	(32,523)
Net Changes	350,241	728,229	(377,988)
Balances at December 31, 2025	\$ 5,338,482	\$ 5,945,423	\$ (606,941)

Sensitivity of the Net Pension (Asset) Liability to Changes in the Discount Rate. The following presents the plan's net pension (asset) liability, calculated using a Single Discount Rate of 7.25%, as well as what the plan's net pension (asset) liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

	1% Lower (6.25%)	Current (7.25%)	1% Higher (8.25%)
Net Pension (Asset) Liability	\$ (131,712)	\$ (606,941)	\$ (988,196)

Note 6: Defined Benefit Pension Plan (Continued)

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. For the year ended April 30, 2026, the District recognized a decrease in pension expense of \$13,734. At December 31, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Amounts Related to Pensions	Deferred Outflows of Resources	Deferred Inflows of Resources
Deferred Amounts to be Recognized in Pension Expense in Future Periods		
Differences between expected and actual experience	\$ 138,436	\$ 12,280
Changes of assumptions	-	2,060
Net difference between projected and actual earnings on pension plan investments	-	243,169
Total Deferred Amounts to be recognized in pension expense in future periods	138,436	257,509
Pension Contributions made subsequent to the Measurement Date, through April 30, 2026	20,508	-
Total Deferred Amounts Related to Pensions	\$ 158,944	\$ 257,509

Deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date of \$20,508 are recognized as a reduction of the net pension (asset) liability in the year ended April 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Year Ending December 31	Net Deferred Inflows of Resources
2026	\$ 89,456
2027	(72,588)
2028	(69,572)
2029	(66,936)
2030	567
Thereafter	-
Total	\$ (119,073)

Note 7: Other Post-Employment Benefits

The District is required to offer employees, who are IMRF vested, continued health insurance coverage upon retirement. The retiree pays the entire health insurance premium, so there is no explicit subsidy by the District. However, the applicable GASB statement 75 related to Post-Employment Benefit Plans Other than Pensions requires consideration of the potential implicit subsidy due to the likely demographic differences of the retired population. Since the District participates in a health plan that has age-related premiums, there is no implicit subsidy; and consequently, no liability to the District.

Notes to Financial Statements

Note 8: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions, injuries to employees and natural disasters. As such, the District carries commercial insurance to mitigate those risks of loss. Settled claims resulting from these risks have historically not exceeded insurance coverage in the past three years and there have been no significant reductions in coverage.

Note 9: Adjustments

Amounts reported in the statement of net position are different from the governmental fund balance sheet because:

Significant balances of inventory items need not be reported as assets in the fund statements if the purchases method is used.	\$ 610,839
Capital assets used in governmental activities are not financial resources and therefore are not capitalized in the funds.	958,463
Net pension asset.	606,941
Net deferred outflows and deferred inflows related to pensions.	(98,565)
Liabilities for compensated absences, which will not mature in the current period, are not included in the governmental fund balances and therefore, are deducted from net position.	<u>(107,136)</u>
	<u>\$ 1,970,542</u>

Amounts reported on the statement of activities are different from governmental funds statement of revenues, expenditures and changes in fund balances because:

The government funds report capital outlays as expenditures; however, in the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation or amortization expense. This is the amount by which depreciation expense exceeded capital outlays (\$64,670 less \$25,336).	\$ (39,334)
Recognizing a decrease in inventory.	(6,686)
Recognizing the change in pension expense relating to the change in deferred outflows, deferred inflows and net pension (asset) liability.	44,418
Recognizing a decrease in the accrual for compensated absences.	<u>16,250</u>
	<u>\$ 14,648</u>

*Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2025 Contribution Rate**

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2025 Contribution Rates:

<i>Actuarial Cost Method:</i>	Aggregate entry age = normal
<i>Amortization Method:</i>	Level percentage of payroll, closed
<i>Remaining Amortization Period:</i>	18-year closed period
<i>Asset Valuation Method:</i>	5-year smoothed market; 20% corridor
<i>Wage Growth:</i>	2.75%
<i>Price Inflation:</i>	2.25%, approximate; No explicit price inflation assumption is used in this valuation.
<i>Salary Increases:</i>	2.85% to 13.75%, including inflation
<i>Investment Rate of Return:</i>	7.25%
<i>Retirement Age:</i>	Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2023 valuation pursuant to an experience study of the period 2020 to 2022.
<i>Mortality:</i>	For non-disabled retirees, the Pub-2010 Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median

Required Supplementary Information

income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

Other Information:

Notes:

There were no benefit changes during the year.

* Based on Valuation Assumptions used in the December 31, 2023, actuarial valuation.
