**■ Employment Desired**

Status:  New Applicant  Returning Employee (Indicate What Years Employed \_\_\_\_\_)

Have you ever filed an application with us before?  Yes  No If yes, give year: \_\_\_\_\_

Type:  Full-time Seasonal  Permanent

If required, are you available for work Saturdays?  Yes  No

If required, are you available for work in the evenings?\*\*\*  Yes  No

\*\*\*IMPORTANT: All General Larval employees and any other seasonal employees who have obtained an Operator's License from the Illinois Department of Agriculture in the category of Mosquito Pest Control must be available to work two evenings a week (Monday - Thursday) from July 1<sup>st</sup> until employees specified end date. Failure to fulfill this requirement will result in sign on bonus loss.

**■ Operational Division Descriptions**

District employees are divided into operational divisions, each division has a specific set of responsibilities. Following are descriptions of each division, please read carefully.

**General Larval Division**  
**Operational Dates May - September 30th**  
**Employees Must be Available Through August 15th or Later**

This Division focuses on the inspection/treatment of all potential mosquito breeding sources other than catch basins. Single or two member crews equipped with motorized and hand equipment are responsible for inspecting all potential mosquito breeding sites in an assigned area, and applying appropriate larvicide to those sources actually found breeding. Crews collect data on source condition, breeding density, larval samples, any treatment required, etc. This work involves lifting and carrying equipment up to 60 lbs. in weight, over extended distances of rough, uneven terrain to sources requiring treatment. When required, crews will be formed from employees in this Division to perform drainage and/or trail maintenance activities. Work involves physical labor using shovels, picks, rakes, saws, clippers, weed whackers, etc. All the General Larval Division activities involve frequent exposure to poison ivy and many sources of hay fever pollen. Additionally, these activities can result in extended exposure to heat and sun.

**Catch Basin Division**  
**Operational Dates May - August 1st**  
**Employees Must be Available Through August 1st**

This Division involves the treatment of curbside storm water catch basins for mosquito larvae control. Single member crews are assigned a right-hand drive Jeep for this operation. Driver is responsible for treating all catch basins in an assigned area. Driver disperses a larval control briquet into each catch basin. This procedure requires the employee to be able to sit and drive the vehicle for long periods at a time. It also involves a great deal of stop-and-go driving with subsequent braking and acceleration. Additionally, this activity can result in extended exposure to heat and sun.

**Off-Road Basin/Floater Division**  
**Operational Dates May - August 1st**  
**Employees Must be Available Through August 1st**

This Division involves the treatment of off-road storm water catch basins for mosquito larvae control. A single member crew will treat catch basins in walk-in areas which are not accessible to vehicles. This will necessitate walking to sites, sometimes over rough terrain, carrying larval control briquets. Additionally, this activity can result in extended exposure to heat and sun. On occasion, crew members will be transferred to the Catch Basin division as needed to fill-in. Crew members must be capable of performing all duties required by that division and will receive the equivalent pay rate for hours worked.

**Laboratory Division**  
**Operational Dates May - September 30th**  
**Employees Must be Available Through August 15th or Later**

This Division focuses on the collection and processing of data pertinent to various aspects of mosquito control. Combination of indoor and outdoor activities including sample collection and identification, field data collection, post-larval treatment inspection, etc. This activity will involve driving throughout District. It will also occasionally involve walking over rough, uneven terrain to get to field inspection areas. Significant time will be spent with microscope and use of larval/adult mosquito identification keys. Biology oriented background preferred, but not essential. Occasionally work load may necessitate work in other divisions. When required, pay rate will be at level of that division.

**Office Division**  
**Operational Dates May - September 30th**  
**Employees Must be Available Through August 15th or Later**

This Division focuses on clerical aspects of daily operations. Duties include answering incoming telephone calls and providing the caller with information requested when possible, or directing call to appropriate staff member. Patience and courtesy is required particularly with frequent irate callers. Computer data entry of all field data collected is also the responsibility of this Division. Accurate typing skills and basic familiarity of computers are required. Secondary duties include contacting villages and libraries for distribution of informational handouts, as well as assisting in the laboratory division as needed.

**Adult Control Division**

This Division involves the application of ultra-low volume aerosol pesticide for the control of adult mosquitoes. Single member crews are assigned a vehicle with a mounted sprayer. The driver must follow a detailed spray route map while controlling the sprayer and driving safely. This requires the employee to be able to sit and drive the vehicle for 3-5 hours. Adult control operations are conducted from dusk to midnight, during the hours where adult mosquitoes are most active. Employees that work in this division will be drawn from the General Larval Division.

**■ Division Preference**

Division as described above (If more than one, rank in order of preference – 1-highest, 5-lowest):

\_\_\_ General Larval \_\_\_ Catch Basin \_\_\_ Off-Road Basin/Floater \_\_\_ Laboratory \_\_\_ Office

Do you feel you are able to perform the functions of the division(s) you have applied for as described above?  Yes  No If no, describe: \_\_\_\_\_

■ **Employment Availability**

Date Available: \_\_\_\_\_

For Seasonal, Last Day Available: \_\_\_\_\_

\*\*\* IMPORTANT: Must meet division availability requirements to be considered for employment\*\*\*

Are you planning to take vacation/time off during season?  Yes  No If yes, describe: \_\_\_\_\_

How far would you be from District headquarters? \_\_\_\_\_

Do you have reliable transportation to work?  Yes  No

How did you hear about this employment opportunity? \_\_\_\_\_

■ **Emergency**

In case of emergency, notify: \_\_\_\_\_ ( )

Name Telephone

I hereby certify that the answers given and statements made are true and correct. I hereby authorize all my previous employers, or references to furnish any information concerning my personal character or employment records. I hereby release all such persons from liability or damages incurred as a result of inquiry and furnishing this information. If hired, I agree to furnish documentation within 72 hours showing my identity and that I am legally authorized to work in the United States. I hereby authorize the District to check my driving record as it appears in the files of the office of the Secretary of State of Illinois.

I understand that false or misleading information given in my application or interview(s) may result in discharge. I understand, also, that I am required to abide by all rules and regulations of the District. In addition, I understand that I may be required to pass the written General Standards Examination as administered by the Illinois Department of Agriculture to obtain a Public Operator's License in the category of Mosquito Pest Control for employment with the District. Employees hired for the Catch Basin, Off-Road and Laboratory Divisions must complete the Solid, Single-use Larvacide Training Course, conducted in house, and required by the Illinois Department of Agriculture

In the event of employment as a *Seasonal Employee*, I hereby understand and acknowledge that, unless otherwise defined by applicable law, any employment relationship with the District is of an "at will" nature, which means that the Employee may resign at any time and the District may discharge Employee at any time with or without cause. It is further understood that this "at will" employment relationship may not be changed by any written document or by conduct unless such change is specifically acknowledged in writing by an authorized executive of the District.

This application for employment shall be considered active for a period of time not to exceed 90 days. Any applicant wishing to be considered for employment beyond this time period should inquire as to whether or not applications are being accepted at that time.

## **Fair Credit Reporting Act Disclosure Statement**

In accordance with the provisions of Section 604(b)(2) of the Fair Credit Reporting Act, you are being informed that a department of motor vehicle report will be obtained on you for employment purposes through:

iiX, a Versick Analytics Business  
1716 Briarcrest Drive  
Suite 200  
Bryan, Texas 77802

The iiX privacy policy can be found at [www.verisk.com/iiX/about/iiX-online-privacy-notice/](http://www.verisk.com/iiX/about/iiX-online-privacy-notice/)

## **Authorization to Obtain Motor Vehicle Report**

I acknowledge the receipt of the above disclosure statement and authorize iiX to obtain the department of motor vehicles report for employment purposes. This authorization is ongoing and permission is granted for The Desplaines Valley Mosquito Abatement District to secure this information during the length of my employment.

## Wage Scales and Sign-on Bonus Supplement for Seasonal Employment

Please complete **all sections** of the employment application. All information is necessary to process the application.

Base wage scales and minimum employment length for Divisions summarized in employment application are:

<b>Operational Division</b>	<b>Wage</b>	<b>Minimum Employment Length</b>
General Larval Division	<b>\$20.00/hr.</b>	August 15 <sup>th</sup> or later
Laboratory Division	<b>\$18.00/hr.</b>	August 15 <sup>th</sup> or later
Off-Road Basin Division	<b>\$18.00/hr.</b>	August 1 <sup>st</sup>
Catch Basin Division	<b>\$17.00/hr.</b>	August 1 <sup>st</sup>
Office Division	<b>\$17.00/hr.</b>	August 1 <sup>st</sup>
Adult Control Division	<b>\$24.00/hr.</b>	

### **Sign-on Bonus**

All seasonal employees who meet the minimum employment length requirement, and meet all other qualifications including allowed absence criteria as defined in detail within the *Seasonal Employee Personnel Information Handbook* (issued first day of employment) will qualify for a sign on bonus summarized below:

<b>Operational Division</b>	<b>Absence Allowed</b>	<b>Sign-on Bonus Amounts (Minimum Employment Length)</b>
General Larval Division Laboratory Division Office Division	3.5 Days	<b>\$1,000</b> (August 15 <sup>th</sup> end date) <b>\$1,200</b> (September 1 <sup>st</sup> end date)
Off-Road Basin Division Catch Basin Division	3 Days	<b>\$800</b> (August 1 <sup>st</sup> end date)

Compensation for the sign-on bonus will be made by check issued in addition to your last pay check for the season, and will be subject to applicable withholding taxes.

All employees will be hired for one primary division to which the majority of employment time will be spent. A shift between Divisions may be made on occasion to meet various requirements of the current mosquito season. On such occasions, you will be paid the rate applicable to the division you were transferred to instead of the rate for the Division you were hired.

New employees hired for the General Larval Division will be required to pass a written, multiple-choice exam administered by the Illinois Department of Agriculture to obtain a Commercial Not-for-hire Operator's License. The District will provide paid training and study materials to prepare you for the exam. The exam will be taken after hiring, but before you begin any mosquito control activities. The District will assume spray license fees.
